3Q 2017 Domestic Well List for EPA.xlsx

.....
Dante,

Please see the details below regarding the 3Q Domestic Well Sampling at the Yerington site. Let us know if EPA plans to collect split samples during this event.

Thanks,

-jack

Subject: 3Q 2017 Domestic Well Sampling

Jack,

Attached for EPA's reference is a spreadsheet that summarizes wells identified in the Domestic Well Monitoring Program (DWMP) as of August 3, 2017. Wells DW-210 and DW-212 are now receiving City water and will not be sampled. The DWMP currently consists of:

211 wells total

182 "Yes", we have signed access agreements (up to 10 wells are potentially sampled quarterly and 38 wells are potentially sampled semi-annually)

4 "Pending", owner(s) have indicated that a signed access agreement will be sent

2 "Outstanding", access agreement sent but not returned, we have been unable to contact by phone and/or in person

23 "No", owner(s) not interested in program, have declined access to sample their well

3Q 2017 domestic well sampling is scheduled to start at 11 AM on Tuesday, September 12th and potentially last through the end of Thursday, September 14th. During the 3Q 2017 event, “Quarterly” and “Semi-Annual” wells **at residences not receiving City water** will be sampled (up to 38 wells will be sampled). The second tab on the attached spreadsheet indicates the 38 wells that are scheduled to be sampled during the event. Please let me know if the EPA will be collecting split-samples this quarter.

I’ll let you know of any revisions to this information before the 3Q 2017 event.

Please let me know if you have any questions.

Thanks,

Jeremy Boucher, PE, CEM
